SAKSHI PATEL

SOFTWARE DEVELOPER INTERN

PROFILE

B.Tech Computer Science student with a strong interest in software and full-stack web development. Skilled in HTML, CSS, JavaScript, and currently building backend skills with Node.js and Express. Developed projects including Campus Fix, Notewise, and a Spotify Clone while strengthening problem-solving and programming skills. Eager to learn, contribute to real-world projects, and grow as a software developer.

PROJECTS

08-2026 - 08-2026 **Campus Fix**

https://sakshipatel-2008.github.io/CampusFix/

Campus Fix — Campus Issue Reporting Platform.
A web-based platform designed to help students report and track campus-related issues in an organized way. Built the frontend and worked on the application structure and user interaction.

08-2026 - Present **Notewise Digital Notes WebApp**

https://github.com/Sakshipatel-2008/Notewise-Study-Agent

Notewise — Digital Notes Application
A simple web application for creating and organizing digital notes with a clean and user-friendly interface. Developed the frontend with a focus on usability and responsive design.

09-2026 - 09-2026 **Music Streaming UI**

https://github.com/Sakshipatel-2008/fullstackdev-journey/tree/main/spotifyclone

Spotify Clone — Music Streaming UI
A frontend project inspired by modern music streaming platforms, featuring a music-player style interface, playlists, navigation, and responsive layouts.

EDUCATION

09-2025 - Present

Ghaziabad

B.Tech/B.E. in Data Science

AJAY KUMAR GARG ENGINEERING COLLEGE

Pursuing **Bachelor of Technology (B.Tech) in Computer Science and Engineering with a focus on Data Science**. Building a strong foundation in programming, web development, databases, and software development through academic learning and hands-on projects.
